Career Objective

Motivated and results-driven student at Vel Tech University with strong expertise in Artificial Intelligence, Machine Learning, Deep Learning, and Full Stack Development. Experienced freelancer who has successfully delivered multiple client projects with high-quality solutions.

Education

Vel Tech University

Bachelor's Degree (CSE(AIML))

CGPA: 8.2/10

Expected Graduation: 2028

Technical Skills

- Artificial Intelligence (AI)
- Machine Learning (ML)
- Deep Learning (DL)
- Generative AI
- Full Stack Development
- Cloud Computing
- SQL Databases
- Programming Languages: Python, JavaScript, Java
- Frameworks: React, Node.js, TensorFlow, PyTorch
- Languages: English (Professional), Hindi (Professional), Telugu (Native), Tamil (Conversational)

Freelancing Experience

Freelance Developer

(2025 – Present)

- Developed and deployed multiple client-based web applications.
- Built AI/ML-powered solutions for automation and data analysis.
- Designed full-stack applications with secure cloud deployment.
- Managed databases using SQL and cloud-based storage solutions.
- Delivered scalable and production-ready applications on time.

Projects

AI-Based Application

- Developed a machine learning model for predictive analysis.
- Integrated the model into a web-based application.

Full Stack Web Application

- Built a complete travel related web application
- Implemented authentication and SQL database integration.

Generative AI Project

- Developed a Generative AI-based solution for automated content generation.

Soft Skills

- Problem Solving
- Communication Skills
- Client Management
- Team Collaboration

Certifications

- AI and Machine Learning Certification
- Full Stack Development Certification
